The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Haber 4,103,773.

Haber teaches a hopper 22 and a tray 14 and further having a truncated level 18. Elements 31 on the hopper are configured to complement elements 30 on the base. An effective hinge arrangement results.

The particular configuration allows for easy stacking.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other ball stacking arrangements are illustrated by Kelly 6,742,982; Thomsen 5,381,895; Gonzalez 5,715,974; and Medendorp 4,472,752.
